

OHAUS DAS (Data Acquisition Software)

Compatible with most current non-approved OHAUS balances or scales equipped with RS232 (list of supported balances available on request)

Model	Item No.	Price £
OHAUS DAS software	80253300	120

- Automatic data capture** OHAUS DAS captures specific data strings from the scale either automatically or when requested. Received strings are automatically converted into a table (list of supported data available on request)
- Automatic data editing** OHAUS DAS analyzes and edits the received data strings down to relevant information (date, gross, net, unit, time ...). The list of possible information depends on the model and settings of the scale.
- Simple exporting** OHAUS DAS enables the user to save the edited data directly as an Excel file
- Multi-lingual** OHAUS DAS can be translated into any language without changing the source code
